### Heritage Trail Car Park Commuter Bike Nest at Union Mills

Dear Cyclist

Welcome to the Heritage Trail Bike Nest at Union Mills. The cycle locker is intended for cyclists who travel to and from work by bicycle. You can park your car in the Heritage Trail car park during the day and cycle to work along the Heritage Trail. The Nest provides a dry, secure place to store your bike overnight, alleviating the need to transport bikes back and forth from home each day.

There are six keys available for the bike nest corresponding to the six spaces within.

All keys are issued by the Commissioners to specific individuals after checking their identity. This should assist in ensuring the lockers remain as secure as possible. The keys are security keys and cannot be cut without the key code. Nevertheless, we advise you to lock your bike to the wheel stand or lock the wheel to the frame so it cannot be ridden.

We understand that you may not cycle to work every day but we're sure you will agree that the locker should be reserved for people who will regularly cycle in place of using a private car. Consequently, if you find you are not using the locker regularly we would ask you to return your key so that someone else may use the space. If you lose your key, please let us know. We may need to charge you for a replacement.

The Bike Nest is provided under a partnership between Braddan Parish Commissioners and the Department of Infrastructure as part of the Isle of Man Active Travel Strategy.

We hope you enjoy your journey to and from work and that you find the Bike Nest useful. If you have any feedback that might help us to improve the experience of cycling in Braddan, please call 852808 or email [braddan@braddan.im](mailto:braddan@braddan.im)
